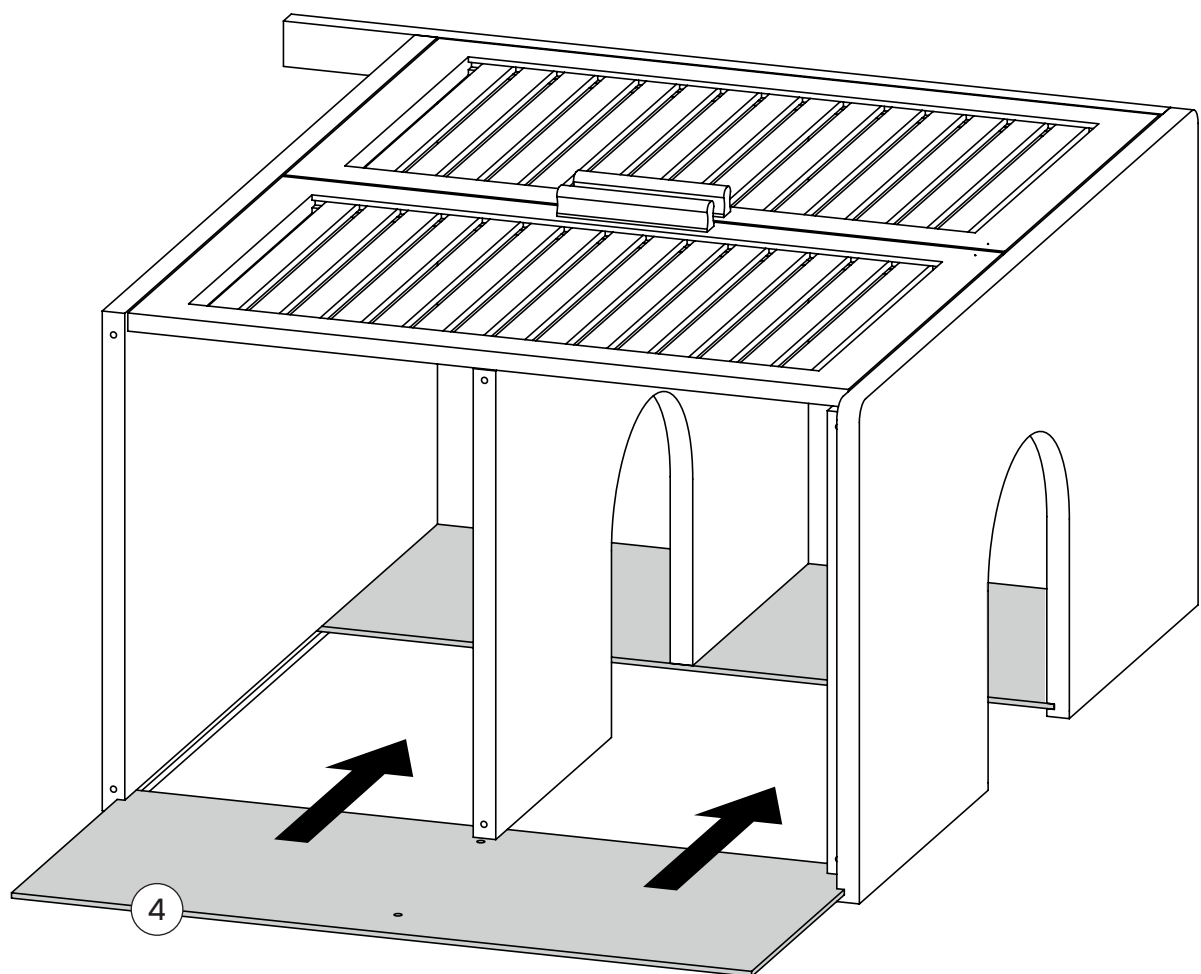

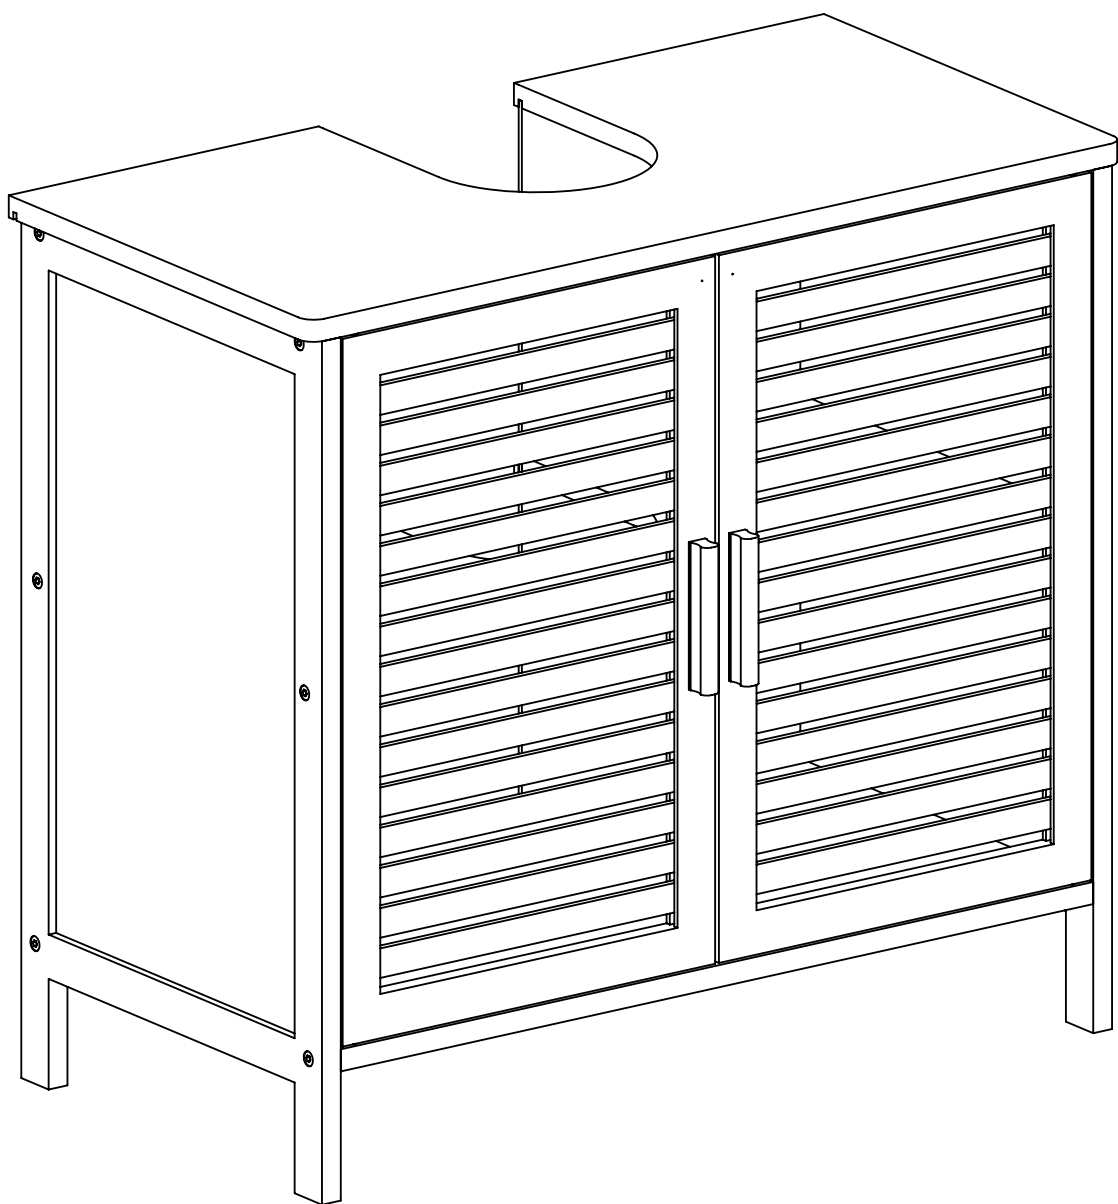

Diagram 8 illustrates the step of attaching the front panel to the cabinet frame. The front panel, which features a slatted top and a solid lower section, is shown being aligned with the frame. Eight screws are indicated by leader lines, showing how they are used to secure the panel to the frame's rails and posts. A circular callout with the number '8' is placed near the bottom right corner of the panel.

This diagram illustrates the final step of attaching the front panel (10) to the cabinet frame. Two screws are shown being driven into the pre-drilled holes in the panel, securing it to the frame's side rails.

Geschafft!
