Guide d'installation du BORJA ML8949 (600*600)

COMPOSANTS

Ceinture à LED: 2835-60-6000K

Instructions de maintenance

1. Lors de l'utilisation de l'armoire du miroir, veuillez ne pas mettre de produit chimique qui incluent de l'acide, de l'alcalin et autres produits chimiques corrosifs sur le cadre de l'armoire afin d'éviter d'endommager la surface de l'armoire.
2. Veuillez ne pas mettre de gaz volatil dans l'armoire du miroir.
3. Veuillez ne pas mettre de serviette humide ou serviette de bain dans l'armoire, ne touchez spécialement pas le cadre de l'armoire afin d'éviter l'oxydation.
4. Lors de l'utilisation de l'armoire pendant longtemps, après que le miroir de la porte devienne sale, vous pouvez utiliser un mélange de 70% C_2H_5OH et 30% d'eau pour nettoyer le miroir.
5. Le côté du miroir est spécialement réglé, veuillez utiliser un chiffon doux pour le nettoyer, et gardez le côté du miroir sec, veuillez ne pas utiliser de produits chimiques acides pour le nettoyer.

1. Marquez les positions des deux trous pour vis sur le mur où vous souhaitez installer le miroir selon la dimension indiquée dans le schéma ci-dessous.

2. Percez les trous précédemment marqués, le diamètre et la profondeur doivent être identiques à ceux des vis.

3. Insérez les chevilles dans les trous percés.

4. Tournez dans le trou de forage sur le mur avec les vis à tête pliée dans le sens des aiguilles d'une montre. (10mm exposés est approprié).

5. Mettez le miroir sur le mur comme indiqué sur l'image.

Installation manual of BORJA ML8949 (600*600)

TOOLS

COMPONENTS

Maintenance Instruction

1. When use the mirror, please don't put the chemicals which including acid, alkaline and other corrosive chemicals on the frame of the mirror so that could avoid to affect the surface of the mirror.
2. Please don't put some volative gas in the mirror.
3. Please don't put the wet towel or bath towel in the cabinet, especially don't touch the frame of the mirror so that could be avoid of oxidation.
4. When use the mirror for a long time, after the mirror is not clear, we could use the Mixture of 70% CH_2OH and 30% water to clear the mirror.
5. The side of mirror is dealt specially, please use soft cloth to clear it, and keep the side of the mirror dry. Please don't use acid chemicals to clear it.

1. Mark the positions of the two screw holes on the wall where you want to install the mirror according to the dimension given in the below sketch.

2. Drill holes previously marked, diameter and depth to be same as that of the screws.

3. Insert the wall plugs into the drilled holes.

4. Spin into the drilling hole on the wall with the bent-head screws in clock wise direction.(10mm appropriate exposed).

5. Place the mirror on the wall.

WERKZEUG

KOMPONENTEN

LED-Band: 2835-60-6000K

Wartungsanleitung

1. Wenn Sie den Spiegelschrank benutzen, stellen Sie bitte keine Chemikalien, die Säure, Lauge und sonstige ätzenden Chemikalien enthalten, auf den Rahmen des Schrankes, damit sie nicht auf die Schrankoberfläche einwirken können.
2. Bitte kein flüchtiges Gas in den Spiegelschrank stellen.
3. Bitte legen Sie kein feuchtes Handtuch oder Badetuch in den Schrank, berühren Sie insbesondere den Rahmen des Schrankes nicht, um Oxidation zu vermeiden.
4. Bei längerer Verwendung des Schrankes und wenn der Türspiegel nicht klar ist, können wir eine Mischung aus 70 % C_2H_5OH und 30 % Wasser verwenden, um den Spiegel zu reinigen.
5. Die Seite des Spiegels ist speziell behandelt, nutzen Sie bitte für die Reinigung ein weiches Tuch und halten Sie die Seite des Spiegels trocken, bitte für die Reinigung keine säurehaltigen Chemikalien verwenden.

1. Markieren Sie die Positionen der zwei Schraubblöcher an der Wand, wo Sie den Spiegel gemäß den Abmessungen in der nachfolgenden Zeichnung installieren möchten.

2. Bohren Sie die zuvor markierten Löcher. Durchmesser und Tiefe der Löcher müssen denjenigen der Schrauben entsprechen.

3. Stecken Sie die Dübel in die Bohrlöcher.

4. Drehen Sie die Senkschrauben – im Uhrzeigersinn in die Bohrlöcher in der Wand. (ca. 10 mm tief).

5. Bringen Sie den Spiegel an der Wand an, siehe Abbildung.

Manual de instalación de BORJA ML8949 (600*600)

Instrucciones de mantenimiento

1. Cuando utilice el espejo, no ponga productos químicos que incluyan ácido, alcalino y otros productos químicos corrosivos en el marco del espejo para que pueda evitar afectar a la superficie del espejo.
2. No ponga un gas volátil en el espejo.
3. No ponga la toalla húmeda o la toalla de baño en el armario, especialmente no toque el marco del espejo para que pueda evitarse la oxidación.
4. Cuando se utiliza el espejo durante mucho tiempo, después de que el espejo no es claro, podríamos utilizar la mezcla de 70 % C_2H_5OH y 30% de agua para limpiar el espejo.
5. El lado del espejo se trata especialmente, por favor use un paño suave para limpiarlo, y mantenga el lado del espejo seco.

1. Marque las posiciones de los dos agujeros para los tornillos en la pared donde desea instalar el espejo según la dimensión indicada en el siguiente esquema.

2. Perfore los agujeros previamente marcados, el diámetro y la profundidad deben ser los mismos que los de los tornillos.

3. Introduzca los tacos en los agujeros perforados.

4. Gire en el orificio de perforación en la pared con los tornillos de cabeza doblada - en la dirección de las agujas del reloj. (10mm expuesto)

5. Coloque el espejo en la pared como un cuadro.

STRUMENT

COMPONENTI

LED Cintura: 2835-60-6000K

Istruzioni di manutenzione

1. Quando si utilizza lo specchio, non mettere le sostanze chimiche che includono acidi, alcalini e altre sostanze chimiche corrosive sul telaio dello specchio in modo da evitare di intaccare la superficie dello specchio.
2. Per favore, non mettere un po' di gas volatile nello specchio.
3. Si prega di non mettere l'asciugamano bagnato o l'asciugamano da bagno nell'armadio, in particolare non toccare la cornice dello specchio in modo da evitare l'ossidazione.
4. Quando si utilizza lo specchio per molto tempo, dopo che lo specchio non è chiaro, potremmo usarlo la Miscela di 70% C₂H₅OH e 30% di acqua per pulire lo specchio.
5. Il lato dello specchio è trattato in modo speciale, si prega di utilizzare un panno morbido per cancellarlo, e mantieni il lato dello specchio asciutto. Si prega di non usare prodotti chimici acidi per cancellarlo.

1. Segna le posizioni dei due fori per le viti sul muro dove vuoi per installare lo specchio secondo la dimensione indicata di seguito schizzo

2. Praticare i fori precedentemente marcati, diametro e la profondità deve essere uguale a quella del viti.

3. Inserire i tasselli nei fori praticati.

4. Ruotare nel foro sul muro con le viti a testa piegata in senso orario. (10mm opportunamente esposto)

5. Metti lo specchio sul muro come immagine.

Installatiehandleiding van of BORJA ML8949 (600*600)

HULPMIDDELEN

COMPONENTEN

LED-riem: 2835-60-6000K

Onderhoudsinstructie

1. Wanneer u de spiegel gebruikt, breng dan geen chemicaliën zoals zure, alkalische en andere bijtende chemicaliën aan op het frame van de spiegel, anders kan het oppervlak van de spiegel worden aangetast.
2. Stop geen vluchtige gassen in de spiegel.
3. Plaats geen natte handdoek of badhanddoek niet in het kabinet en raak vooral het frame van de spiegel niet aan, zodat oxidatie kan worden voorkomen.
4. Wanneer de spiegel langere tijd wordt gebruikt en niet meer helder is, kunt u een mengsel van 70% C_2H_5OH en 30% water gebruiken om de spiegel schoon te maken.
5. De zijkant van de spiegel is speciaal behandeld, gebruik een zachte doek om het te verwijderen en houd de zijkant van de spiegel droog. Gebruik geen zure chemicaliën om het te verwijderen.

1. Markeer de posities van de twee schroefgaten op de muur waar u de spiegel wilt installeren volgens de afmetingen in de onderstaande schets.

2. Boor de eerder gemarkeerde gaten. De diameter en diepte moeten hetzelfde zijn als die van de schroeven.

3. Steek de muurpluggen in de geboorde gaten.

4. Draai rechtsonder in het boorgat in de muur met de schroeven (laat ze er 10mm uitsteken).

5. Plaats de spiegel op de muur zoals aangegeven in de afbeelding.

FERRAMENTAS

COMPONENTES

Correia LED: 2835-60-6000K

Instruções de manutenção

1. Quando utiliza o espelho, não utilize químicos que incluam ácidos, produtos alcalinos ou outros químicos corrosivos na estrutura do espelho, pois poderão afetar a superfície do espelho.
2. Não coloque gás volátil no espelho.
3. Não coloque toalhas molhadas ou toalhas depois de utilizar no banho no armário, especialmente não toque na estrutura do espelho, para evitar o aparecimento de oxidação.
4. Quando utiliza o espelho durante um longo período, quando não estiver tão nítido, pode utilizar uma mistura álcool de de 70% (C_2H_5OH) e 30% de água para limpar o espelho.
5. O espelho é muito frágil, utilize um pano suave para limpar e mantenha as laterais do espelho secas. Não utilize químicos ácidos para limpar.

1. Marque as posições dos dois orifícios dos parafusos na parede onde pretende instalar o espelho, de acordo com a dimensão apresentada no esquema abaixo.

2. Faça os furos anteriormente marcados, com o diâmetro e profundidade indicadas, coincidentes com os parafusos.

3. Insira as buchas nos orifícios perfurados.

4. Gire o parafuso no buraco na parede com a chave de cabeça dobrada para a direita. (10mm de exposição apropriada)

5. Coloque o espelho na parede, conforme ilustrado.

NARZĘDZIA

MŁOTEK

TAŚMA MIERNICZA

CZĘŚCI SKŁADOWE

Taśma LED: 2835-60-6000K

Instrukcja konserwacji

1. Używając lustra, nie należy nakładać na jego ramę żadnych substancji chemicznych, w tym kwasów, zasad i innych substancji żrących, aby nie uszkodzić powierzchni lustra.
2. Trzymaj lustro z dala od lotnych gazów.
3. Nie wkładaj mokrego ręcznika do szafki, zwłaszcza nie dotykaj ramy lusterka, aby uniknąć jego utlenienia.
4. Kiedy używasz lustra przez dłuższy czas, a lustro nie jest czyste, możesz użyć mieszaniny 70% C_2H_5OH (etanolu) i 30% wody do przetarcia lustra i przywrócenia jego czystości.
5. Strona lustra wymaga specjalnego czyszczenia, używaj miękkiej szmatki, aby ją wyczyścić i utrzymuj stronę lustra w suchości. Nie używaj kwaśnych środków chemicznych do czyszczenia lustra.

1. Zaznacz na ścianie pozycje dwóch otworów na śruby w miejscu, w którym ma zostać zainstalowane lustro, zgodnie z wymiarem podanym na poniższym szkicu.

2. Wywierć wcześniej zaznaczone otwory, ich średnica i głębokość, mają być dostosowane do śrub mocujących lustro.

3. Włóż kołki śrub do wywierconych otworów.

4. Wkręć śruby w otwory w ścianie, kręcąc wygiętym łbem w kierunku zgodnym z ruchem wskazówek zegara czyli w prawo (wystają na około 10 mm).

5. Umieść lustro na ścianie, jak to by był obraz.
